**A9. FOREIGN EXCHANGE SERVICE AND FOREIGN CENTRAL OFFICE
SERVICE**

A9.1 Foreign Exchange Service¹

Foreign Exchange Service is exchange service furnished to a subscriber from an exchange other than the one from which he would normally be served, or from a subexchange area which provides a different Local Calling Area from that provided by the normal serving subexchange area. In the latter case each subexchange area shall be treated as an exchange under the terms of this service offering and shall be considered as having its own Rate Center, as determined by the Company, for the purpose of administering this Tariff only.

A9.1.1 Regulations

- A. Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified exchange or Local Service Areas.
- B. The Exchange Area or Local Service Area is that territory in which local exchange access is furnished and comprises all the area in which some form of Local Telephone Service is furnished, as distinguished from Long Distance Service.
- C. Foreign Exchange Service is in connection with the provision of a foreign exchange dial tone to a customer location in their normal serving exchange, or the extension of **Centrex Type** Services off-premises station channels terminating in a foreign exchange. These channels may also be furnished on a link (partial channel) basis when connected to FlexServ® service, LightGate® service, and/or MegaLink® Channel Service.
- D. Foreign Exchange Service is not in accord with the general plan of furnishing telephone service and such service is furnished only under special conditions where warranted by the circumstances involved and provided facilities are available.
- E. Other services, equipment or facilities used in connection with Foreign Exchange Service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the foreign exchange from which the subscriber is served.
- F. Foreign Exchange Service is furnished subject to the same restrictions as to the use of the service by other than the subscriber and his representatives, as apply in connection with other classes of service.
- G. Subscribers to Foreign Exchange Service are not required to subscribe to service in the exchange from which they would normally be served.
- H. When the foreign exchange from which service is requested has more than one exchange and/or central office in its Local Calling Area, the Company shall determine from which of the exchanges and central offices service will be furnished. If an applicant desires operation from a different central office and facilities are available therefore, foreign central office or foreign exchange mileage charges will apply for the channel required between the principal central office and the central office from which the applicant desires to be served. When two or more companies are involved in furnishing the service, such determination may be made only with the consent of the Company which operates the exchange from which the service will be furnished.

A9.1.2 Billing of Foreign Exchange Service Provided by Multiple Companies

- A. Each company will bill for the portion of the service provided by its respective tariff based on its regulations, rates and charges as appropriate.

Note 1: Applies to all service ordered on or after October 25, 1978 and any service ordered prior to October 25, 1978 but installed after a normal installation interval. Any other subscriber may retain their previous service arrangement only as long as that same subscriber retains the same telephone number at the same premises.

A9.1.3 Rates And Charges

A. Methods Of Applying Rates

The rate for Foreign Exchange Service is the installation and monthly rate for Exchange Access plus mileage, as specified in A9.1.3. following. For Centrex Type Services off-premises station channels the Centrex Type Services rate applicable within the serving foreign exchange applies, and for residence customers the Flat or Measured Individual Line Main Station rate for the serving foreign exchange applies plus mileage and installation specified in A9.1.3 following and the nonrecurring charges specified in Section A4. Interexchange mileage measurements and the allowance for interruptions on interexchange channels are those specified for voice grade channels in the Private Line Service Tariff. (C)

B. Interexchange Channel

Charges for the Interexchange Channel are based on airline distance between rate centers when the Company provides both the open and closed ends of the service. (A rate center may also sometimes be referred to as a "principal" or "primary" wire center or central office.) When either the open or closed end of the service is provided by another company, the interexchange mileage between the Company's rate center and the point from which the other company bases its mileage charge is determined and billed pursuant to A9.1.1.H. and A9.1.2.A. preceding.

C. Interoffice Channel

1. When Foreign Exchange Service is provided from a Wire Center that is not the primary Wire Center, interoffice mileage charges apply. Charges are based on the airline distance between the primary Wire Center and the Wire Center of the serving central office.
2. When Foreign Exchange Service is terminated in a Wire Center that is not the primary Wire Center area, interoffice mileage charges apply. Charges are based on the airline distance between the primary Wire Center and the Wire Center of the normal serving central office.

D. Provided facilities are available and technical equipment allows, extension station service will be furnished in the foreign exchange. The charge quoted in Section A13. for channels for extension line applies for each station.

E. (DELETED) (D)

F. The Local Service Area of, and Long Distance rates to and from main stations or PBX systems connected for Foreign Exchange Service are the same as regularly apply to stations located in the foreign exchange area.

Note 1: Applies to all service ordered on or after October 25, 1978 and any service ordered prior to October 25, 1978 but installed after a normal installation interval. Any other subscriber may retain their previous service arrangement only as long as that same subscriber retains the same telephone number at the same premises.

G. Nonrecurring Charge

1. The installation charge associated with the Exchange Access Line applies in lieu of all Section A4. charges. However, this installation charge does not apply to residence customers or for Centrex Type Services off premises station channels. For these type channels all Section A4. charges apply.
2. Rates and charges for expediting the installation of service *are* specified in Section A4. of this Tariff. (T)
3. When either the foreign or normal serving exchange service is furnished by another company that company's service charges apply in that exchange.
4. In addition, the installation charge associated with the channel(s) also apply.

A9. FOREIGN EXCHANGE SERVICE AND FOREIGN CENTRAL OFFICE SERVICE

A9.2 Foreign Central Office Service

(T)

A9.2.1 General

- A. Foreign Central Office Service is exchange service furnished to a subscriber in a multioffice exchange from a central office other than the one from which service would normally be furnished, and which provides the same Local Calling Area. If a different Local Calling Area is provided then this service shall be classified as Foreign Exchange Service under the terms of that tariff offering.
- B. Foreign Central Office Service is offered in connection with Individual Line Main Station Service, PBX Service and Centrex Type Services.
- C. Other services, equipment or facilities used in connection with Foreign Central Office Service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the foreign central office from which the subscriber is served.
- D. Alternate routing of this service may be provided on a direct serve basis to the subscriber's premises from the requested foreign central office on an individual case basis as specified in Section A5. of this Tariff, subject to the following conditions:
 - 1. The subscriber must maintain a minimum of fifty percent of the trunks/lines from the central office from which service would normally be furnished.
 - 2. Rates and charges for all components of the service will continue to apply as specified in A9.2.2.A. and B. following with the exception of those applicable for Type 2145 channel(s). The monthly rate for the class of service desired will be based on the rates applicable from the foreign central office, but will be no less than the rates for that service from the subscriber's normal serving wire center. Additionally, rates and charges as specified in A5. of this Tariff will apply on an individual case basis.

A9.2.2 Rates And Charges

A. Methods Of Applying Rates

- 1. The rate for Foreign Central Office Service is the monthly rate for the class of service desired plus the rate for an interoffice channel. The rate for the interoffice channel is based on the airline measurement between the central office from which the subscriber would normally be served and the foreign central office, i.e., the central office from which the subscriber desires to be served.
- 2. **(DELETED)**
- 3. Nonrecurring Charge
The Service Charges as specified in Section A4. are applicable in addition to the interoffice channel installation charge following.
